As part of Public Comment on the current Cal Fed Bay Delta Program, I would like to make the following points:

- ◆ Cal Fed's current structure represents a "taking" of land and water rights.
- ◆ Cal Fed's current structure has the welfare of fish and wildlife over the people of the State of California.
- ◆ Cal Fed's current structure ignores the impacts of taking productive farmland out of production and converting it into habitat. Mitigation for this "taking" is ignored.
- ◆ Cal Fed's current structure ignores California agricultural land and water as valuable resources for the State's economy providing food, fiber and jobs.
- ◆ Cal Fed's current structure ignores improving water efficiencies and the need for additional water storage to serve the State's growing population.
